(864) 279-1518

With a cooperative spirit, I will arrive early, stay late, volunteer cheerfully for difficult tasks and consistently strive to complete those tasks on time and within budget, meeting or exceeding expectations.

I have experience in project management, systems analysis and design, network user support, computer program development, LAN/WAN management, database management, website development, PBX support, people management, and now, property, casualty, surety and marine insurance.

EDUCATION

Bachelor of Science, magna cum laude	Business Administration, Management	Limestone College
Associate of Science, cum laude	Business Data Processing Technology	Nashville State

WORK HISTORY

- Now: Passed SC Property, Casualty, Surety and Marine Insurance Producer exam on 7/6/2018. Am currently studying for a couple of IT certifications, developing responsive websites and enjoying live music performance (see www.steveflacy.com for more information).
